## Welcome to Our Stamp Community

The changing of seasons often allows for time to pause and reflect. In the last issue of *USA Philatelic* we unveiled a fresh look for the catalog, redesigning how new stamps and stamp-inspired products are presented and bringing you exclusive stories about the latest issuances.

We also introduced you to our new website *StampsForever.com* a digital hub for stories, events, and other stamp-related tidbits. The QR codes throughout the catalog direct you to various aspects of the site where you can explore stamp-inspired products.

These new and revamped platforms were designed with our customers in mind. We hope you enjoy the experiences they provide. Whether you've recently joined our community of stamp enthusiasts or been with us for many years, we appreciate your support.

### Playing the Long Game

Celebrating a pastime that has sparked imaginations and friendships for half a century

As a child, Dante Santos relished the chance to lose himself in elaborate fantasy worlds — and now he earns a living doing exactly that. A former engineering team lead for Microsoft, he's now a professional Dungeon Master who guides players through richly imagined games of DUNGEONS & DRAGONS®.

“The highest number of active games I've had going concurrently is 11,” he says. “It's a bit like trying to write 11 fantasy novels at the same time.”

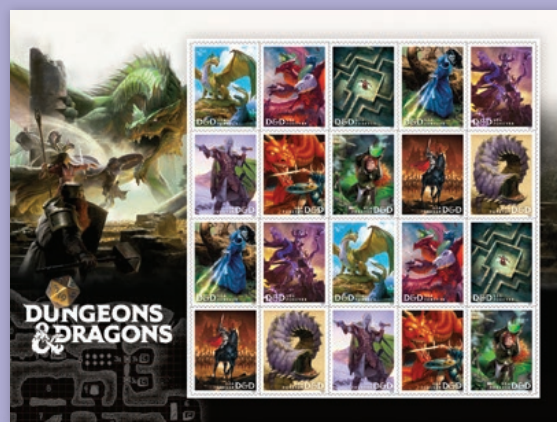

Known by the familiar abbreviation “D&D,” DUNGEONS & DRAGONS® celebrates its 50th anniversary this year. Santos says that he and other longtime players see this pane of stamps as a welcome sign that they've “reached the mainstream.”

Forever changing perceptions of what tabletop gaming can be, D&D invites players to collaborate by telling open-ended stories guided by books, dice, and their own imaginations. Dungeon Masters like Santos oversee the whole experience, describing the setting, inventing obstacles for the players, and playing the roles of people and creatures encountered along the way. Some adventures may be played in a single sitting, but it's not uncommon for friends to play an ongoing D&D campaign together for months or years at a time.

To convey the game's dynamic storytelling, art director Greg Breeding made sure the stamps depicted intriguing snippets of scenes. An adventurer gets lost in a maze, a fiery-haired woman bathes in dragon's blood — and on the selvage, a band of companions stands ready to battle a roaring dragon. Taken together, the stamps feel like tiny postcards from another realm.

Santos says they evoke the nostalgic thrill of being a kid about to discover D&D.

“They absolutely capture that high fantasy, that sense of adventure,” he explains. “The selection of imagery across the board is absolutely perfect for people like my 12-year-old self.” ■

### The Design Challenge (and Opportunity) of Pinback Buttons

Most often stamp subjects are challenging to design because of their small dimensions. Coincidentally, pinback buttons are relatively the same size as many stamps and, similarly, are designed for immediate visual impact. For art director Greg Breeding, the decision to make the Pinback Buttons stamps *look* like real buttons was almost obvious. Then there was the tougher question — what would the buttons say?

After a lot of brainstorming, the research team came up with a long list of ideas, including some words from the sixties like “groovy,” “cool,” and “flower,” as well as more contemporary expressions like “lit,” “fire,” and “yaaas.” But the ones that resonated most felt more timeless and universal. Words like “love,” “cheers,” and “smile” began to set the tone for the personality of the stamps.

Breeding decided to create 10 designs, each with a different typographic message. With this decision, he realized that he would need to commission a different artist for each word. “Although working with artists is the very best part of my role as an art director,” he explains, “the idea of working with 10 at once felt a little overwhelming. But that turned out to be the best creative decision I made.”

He provided a coherent design brief and then stepped back to give each artist the freedom to explore fresh solutions. At no point in the process did they know what the others were doing, so it was Breeding’s responsibility to provide direction while hoping for serendipity to bring them all together. “Sometimes I needed to encourage a color move to provide a spectrum for the pane of stamps,” he recalls, “but without fail, each artist’s work exceeded my imagination for what each stamp could be.” ■

A raised varnish treatment enhances the button designs on these cards.

## Functional Elegance

There is something almost indescribably pleasing about a classic Shaker box. Glossy wood bends to form a perfect oval. Graceful “swallowtail” joints comb the side, narrowing into delicate tips.

A centuries-old religious sect devoted to the art of simple living, the Shakers — for whom all work was a form of worship — have become known for such impeccably designed details.

For these stamps, art director Derry Noyes was drawn to the work of longtime *Smithsonian Magazine* photographer Michael Freeman, who spent more than a year painstakingly capturing the trappings of Shaker life. Like Noyes, Freeman understands that for the Shakers, beauty and utility were inextricable.

“There’s a reason for everything,” says Freeman, “and that concentration on functionality brings its own elegance.”

Everywhere you look, form and function weave together in Shaker design. Legs on chairs taper artfully, making them lightweight, without compromising strength. Abundant cupboards protect belongings from dust, while spacious open floors made cleaning easy. Even the swallowtail joints on Shaker boxes serve a purpose: to prevent the bent wood from cracking. Such thoughtful design touches evolved from Shaker beliefs in order, durability, and joyful simplicity.

They also stand in sharp contrast to the mass-produced furniture, clothing, and household decorations that are so commonplace today, Noyes points out.

Now more than ever, seeing objects that a person made with their own hands can feel very intimate. In fact, “it’s not unlike getting a letter in the mail that someone’s handwritten,” says Noyes. “You think, ‘Oh, someone’s taken the time to write me a letter!’ That didn’t used to be so precious.” ■

**DID YOU KNOW?**

\$25.00 Federal Duck stamps are valid for hunting permits, but Junior Duck stamps are not. Neither stamp is valid for postage.

## Duck Stamps

Nearly all proceeds from these stamps, which are issued by the U.S. Department of the Interior, go to protecting bird and wildlife habitats. Featuring artwork selected annually through a juried contest open to the public, these stamps also serve as licenses for waterfowl hunters.

## PLEASE NOTE

- The U.S. Postal Service reserves the right to adjust pricing when it coincides with a price change.
- Unless otherwise noted, all stamps are self-adhesive.

A self-supporting government enterprise, the U.S. Postal Service is the only delivery service that reaches every address in the nation: more than 161 million residences, businesses, and Post Office™ boxes. The Postal Service generally receives no direct support from taxpayers for its operations. With more than 31,000 retail offices (not including contract offices) and one of the most frequently visited websites of the federal government, the Postal Service relies on the sale of postage, products, and services to pay for operating expenses.

# From Idea to Mailbox

## The process of creating stamps, part 2

### Bringing ideas to life

Each stamp you see on a piece of mail starts out as an idea. And then talented artists bring it to life. That unique piece of art, highlighting a special aspect of American culture, will soon be sold nationwide.

The process begins once the Citizens' Stamp Advisory Committee agrees on the 20–25 stamp topics for next year — a unique mix of subjects ranging from historical and cultural topics to the celebration of sports, youth, art, and more. (See part 1 in our three-part series describing how topics are chosen from among some 15,000 suggested each year.)

Next, USPS assigns stamp projects to four art directors. “Occasionally we’ll make trades after some goodhearted bartering,” says USPS art director Greg Breeding. “With my Southern drawl and phone charm,” he explains with a laugh, “they often put me on assignments working with big studios that own the rights to stamp subjects, such as *Bugs Bunny* or *Star Wars™ Droids*. That’s because there’s so much involved in building rapport — convincing the studios to give you access to all their intellectual property to find something that can make a great stamp.”

In the research phase, the design team locates photography or art, and then brainstorms the best approach: Use an existing work or hire an artist instead? Create horizontal or vertical stamps, or a mix of both? Black-and-white or color? One design to feature the topic, or a series of images?

For one of Breeding’s earliest stamp assignments, the four years of *The War of 1812*, the team had located the oldest-known painting of the USS Constitution. “I couldn’t imagine designing a painting that was better,” Breeding says. But for the third stamp in that series, Breeding couldn’t find a painting stylistically similar. So, he hired a painter to recreate an iconic scene from the war. In the end, the final series of four stamps showcased two historic paintings and two recreations by the same artist.

Some topics bring extra challenges, such as semipostals — whose sales help generate funds for worthy causes. The challenge? “Overall,” Breeding says, “we aspire to create stamps with positive messages, even ones that evoke nostalgia. Yet with semipostals, the subject matter is often distressing.”

Still, one of the most popular stamps created, reprinted again and again, is *Breast Cancer Research* — a bright, colorful illustration, originally designed by art director Ethel Kessler in 1998, to convey strength, courage, and hope. So far, the stamp has raised more than \$97 million. In 2019, Breeding designed the *Healing PTSD* semipostal using a subtle symbol of renewal.

After the approved art goes through a detailed clearance process, it is sent to the Postmaster General. Only then does USPS release the stamp files to the printers.
