

Oneal and Cassandra Tyler

We started collecting and exhibiting after Ricky Johnson (ESPER member) invited Neal and spoke to him about stamp collecting. Next the South Carolina members shared a dinner and stamp gathering at the home of Sumpter ... their many encouraging voices and helpful support. We attended some functions in NC and Bea Cox and their stamp club embrace us like family.

We're constantly try to encourage individuals to appreciate our heritage on stamps. With this thought through our seminars. Students learn a little history, given the opportunity to touch and look at various stamps, select what they like or don't like about a stamp, discuss and research historical facts, and maybe create a product or spark an interest in stamps. Also, our exhibits follow the same pattern- the displays are set up to catch the eye as students and adults as they pass or walk-through using colors, themes, informational folders, the stamps (framed and unframed), the collection books and ESPER Reflection Newsletter like a gallery.

Schools/Churches/Community Centers:

Kwanzaa Dec.22

Feb.-Black History Exhibit
